SKILLS SUMMARY

Programming Languages: Python, C++, C

Cybersecurity: Ethical Hacking, Web Security, Network Security, Vulnerability Assessment

Networking : TCP/IP, HTTP/HTTPS, DNS, Network Traffic Analysis, Packet Analysis

Security Tools & Platforms: Nmap, Wireshark, Burp Suite, Git, GitHub

Core Skill: Problem Solving, Analytical Thinking, Debugging, Team Collaboration

PROJECTS

Web Vulnerability Scanner| [GitHub](#)

Apr' 26

Tech Stack: Python, Requests, BeautifulSoup, Web Security

- Developed a Python-based web vulnerability scanner to identify common security weaknesses in web applications.
- Implemented automated scanning and analysis of web pages to detect potential security issues.
- Applied cybersecurity concepts including reconnaissance, vulnerability assessment, and security testing.

Network Packet Analyzer| [GitHub](#)

Aug' 25

Tech Stack: Python, Scapy, Networking, Packet Analysis

- Built a Python-based network packet analyzer to capture and inspect live network traffic.
- Analyzed packet headers and network protocols to understand communication patterns and identify suspicious traffic.
- Applied networking and cybersecurity concepts including packet inspection, protocol analysis, and traffic monitoring.

Smart Home Automation System | [Arduino](#)

Apr' 25

Tech Used: Arduino Uno, C/C++, Sensors, Embedded Systems, IoT

- Developed a smart home automation system using Arduino Uno to control household appliances through sensor-based inputs.
- Integrated sensors and electronic components to automate device control based on environmental conditions.
- Implemented embedded C/C++ logic for real-time monitoring and automation.
- Gained hands-on experience with microcontrollers, hardware interfacing, and IoT-based automation.

Certificates

- NPTEL 2026 Ethical Hacking | [Link](#)
- Infosys Introduction to Cyber Security | [Link](#)

Aug' 26 - Ongoing
March' 26

Achievements

- Solved 100+ challenges across various CTF platform like Hackthebox.
- Organized 5+ campus events with Student Organization Untangle, showcasing leadership & coordination skills.

EDUCATION

Lovely Professional University

Bachelor of Technology

Computer Science and Engineering; CGPA: 7.24

Phagwara, Punjab

Aug' 25 – Present

Jawahar Navodaya Vidyalaya, Nud Samba

Higher Secondary Education

PCM; Percentage: 64%

Samba, Jammu and Kashmir

Apr' 23 – May'24

Jawahar Navodaya Vidyalaya, Nud Samba

Secondary Education

Percentage: 72%

Samba, Jammu and Kashmir

Apr' 21 – May'22
